

ADMISSION REQUIREMENTS

Prospective students presenting Senior High School or Secondary school or other advanced credentials will be placed into the appropriate semester.

Placement is made based upon the evaluations and review of the applicant's transcript, which determines the appropriate entry point into the Pre-Medical Program. Applicants may also be required to take specific courses before qualifying to enter the Program.

1. NORTH AMERICAN STUDENTS

A minimum of 60 University/College undergraduate level credits that include all science foundation courses or a minimum of 30 University /college undergraduate level credits that include a few science foundation courses or applicants must have a high school diploma with high academic achievement.

High scores in the sciences and SAT are extremely important.

2. CARIBBEAN STUDENTS

Strong Passes in GCE /CXC Advanced Levels or its equivalent in Mathematics, English, Sciences (Physics, Chemistry, Biology, Integrated Science, Agriculture Science, Human Biology) (Applicants at this level would be placed into an appropriate semester within the pre-medical program which is determined by the transcript and other advanced credentials).

PRE-MEDICAL PROGRAM

**A First Step To
A Life Changing
Experience.....**

www.aism.edu

A CAREER IN MEDICINE

If you are interested in healing and promoting the health and wellness of people.

If you believe in the Right to Life for every Human Being.

If you are prepared to challenge yourself by learning the complexities in human illnesses and the healing processes and to keep up to date with new inventions

you may be interested in pursuing a career in medicine.

AIMS PRE-MEDICINE PROGRAM

American International School of Medicine Premedical Program is designed as a strong educational Foundation in basic natural science prerequisites necessary for admission to medical school and other health related Disciplines and Professional Schools.

AT AISM OUR STUDENTS BENEFIT FROM:

- Small classes and close interaction with qualified and dedicated faculty
- Personal advising
- Individual and group tutoring
- Interaction with intelligent , committed and a diverse group of students
- A broad array of volunteer experiences and internships

CURRICULUM

Our Premedical program may be completed in 1 to 3 years, depending on your academic standing on application and evaluation.

Each student's curriculum includes the core premedical courses in chemistry, biology, and physics. Additional courses in calculus, statistics, upper-division sciences, and humanities or social sciences electives may be chosen in consultation with the faculty advisor according to each student's background and interests.

Upon successful completion of this intense program, students are offered the opportunity to matriculate into medical school or for the study of any of the allied health sciences Program.

A First Step to A Life Changing Experience..

We will help you decide and prepare..
