

Step 1 Live Online Review

American International School of Medicine and Becker Professional Education have partnered to offer students USMLE® review programs and resources.

USMLE® Step 1 Live Online Review gives you the structure of a live classroom, with the flexibility to study and learn from anywhere in the world. Our USMLE® Step 1 Live Online Review classes provide real-time, virtual learning with Becker's esteemed faculty.

Step 1 Live Online Review includes the following benefits and features:

Comprehensive Live Online Instruction

11-week study schedule featuring 300 hours of online lectures, covering core Basic Science subjects and over 30 hours of Integrated Cases with Dr. Lionel Raymon

Updated USMLE-Focused Review Books

Seven volumes of full-color, print review notes and exam-relevant information covering all disciplines

Personal Becker Medical Advisor

Your personal medical advisor works with you to develop an individual study plan to complement the live lectures and independent review activities

3 Block Basic Science Diagnostic Exam

4 Block Basic Science Simulated Exam

Eighteen Months Access* to GuideMD: Advanced Interactive Learning

Online interactive study series featuring over 220 hours of lecture material complemented by animations, video, graphic renderings and case summaries

Eighteen Months Access* to QMD: Advanced USMLE Question Bank

Over 2,200 exam-tested questions, allowing you to design personalized exam blocks to assess your progress and knowledge of key subject matter concepts

2 Step 1 Assessment Exams

Identify areas of strength and opportunity for progress as you prepare for exam day

"Becker's live online course helped me achieve my step 1 goal. I scored 260 and much of the credit goes to the Becker study materials and the excellent faculty. I look forward to using Becker in the future for step 2 review, and I would recommend Becker to everyone preparing for step 1. Becker was extremely accommodating to my personal study schedule. I found the diverse study resources offered by Becker critical for my step 1 success. The textbooks, GuideMD, Q-bank, and integrated cases allowed the information to be presented via multiple methods which allowed complete and thorough comprehension."

—K. Ridge, St. James School of Medicine

GUIDE MD

Advanced Interactive Learning | Step 1

GuideMD: Advanced Interactive Learning is a guided learning resource that jump-starts your review and establishes your path for success on the USMLE Step 1 exam.

With GuideMD you get over 220 hours of multimedia instruction from our experienced faculty. This guided learning resource provides you with exam-relevant, integrated content that can help you prepare for the Step 1 Exam at your own convenience.

GuideMD includes the following features and benefits:

Personal Audio Coach

Our esteemed faculty team guides you through the review notes explaining the essential content and important details of that particular subject

Autoplay/Playlist

Provides seamless play of all video and audio content within a chapter from first page to last

10-Second Rewind

One click, 10-second rewind, available for reviewing complex concepts or replaying missed content

Fast-play mode

Enables you to view the annotated audio lectures at regular, accelerated speeds for quick-review studying

Advanced Search Tool

Provides full-text search capability across all Step 1 subjects

Annotation Functionality

Highlight, underline, and take notes as lectures are playing - then go back and review your saved notes made directly on the page

Page View Options

Allows you to choose how you would like to view the course materials based on your study location and device

High-Resolution Graphics

Full-color illustrations and embedded motion graphics that render complex concepts in high definition and high color conceptualizations, of all USMLE related topics

Connect the Dots

Dr. Lionel Raymon breaks down detailed case-related concepts that are mapped to specific content featured in the Pharmacology text - creating an integrated scenario that interlinks all subjects for intensive review

Becker's QMD: Advanced USMLE Question Bank

Over 2,200 exam-tested questions, allowing you to design personalized exam blocks to assess your progress and knowledge of key subject matter concepts
